LEGISLATIVE COUNSEL'S DIGEST

SB 262, as amended, Kuehl. Buildings: access: enforcement.

**Existing**

*(1) The federal Americans with Disabilities Act of 1990 and the California Building Standards Code require that specified buildings, structures, and facilities be accessible to, and usable by, persons with disabilities. Existing law establishes in the Department of General Services the State Architect with responsibilities relating to architectural services and state buildings.*

*This bill would require the State Architect to establish, adopt by regulation, and publicize a program for certification by the state of any person who meets specified criteria as a certified access specialist. It would require the State Architect, no later than January 1, 2005, to determine minimum standards of performance and other criteria a person must meet for certification, which may include knowledge sufficient to review, inspect, or advocate universal design requirements, completion of specified training, and testing on standards governing*

*access to buildings for persons with disabilities. It would require the State Architect to annually publish and make available to the public a list of certified access specialists and provide that this certification is effective for 3 years and renewable.*

*This bill would authorize the State Architect to require applicants for certification and renewal of certification under this program to pay specified fees, which would be deposited in the Certified Access Specialist Fund created by the bill. The bill would continuously appropriate this fund for use by the State Architect to implement the certified access specialist program.*

*(2) Existing law authorizes the district attorney, ~~a~~ the city attorney, the Attorney General or, in certain instances, the Department of Rehabilitation acting through the Attorney General, to bring an action to enjoin a violation of prescribed requirements relating to access to buildings by handicapped persons.*

*This bill would authorize the county counsel to also bring those actions if the district attorney does not bring an action. The bill would additionally authorize any of those officials, including county counsel if the district attorney does not bring an action, to bring a civil action to impose civil penalties on persons who violate prescribed statutes or regulations relating to access to buildings by handicapped persons. The bill would prescribe the amounts, according to circumstances set forth in the bill, and the disposition of those civil penalties.*
